27 March 2020

Effective Thursday, March 26th, Beaver Island growlers will be available for delivery and pick up. This was a difficult decision, however, with the recent executive order we must put our employees first to avoid layoffs. At the same time, many of our valued customers will have to stay in their homes and we can't deny them the enjoyment of their favorite Beaver Island brew. Many thanks for your continued support and, if able, please support us at your local liquor store.
